

■ CIC-310 CPLD / FPGA Development System

CIC-310 CPLD/FPGA Development System is self-contained system which contains stabilized DC power supplies, Development Board and Experiment Board. CIC-310 also provides digital system designers for hardware verification which enables students to learn digital system design efficiently.

● Features

1. FPGA (FLEX 8000) download board (84pin)
2. I/O experiments board
3. MAX+PLUS® II development software (student version)
4. Program manager software for program download and In-System-Programming
5. Experiment manual
